Re: Crucible Industries Achieves On-Time Delivery Milestone

For six months in a row, Crucible Industries on-time delivery topped 90%. Starting in March, Crucible has averaged 93% on-time delivery to its diverse customer base.

Crucible president Jim Beckman commented about achieving the milestone:

“Relentless hard work by all of our dedicated employees coupled with reliable customer forecasting played a significant role in our success. Having some of the shortest lead times in certain product areas along with reliable delivery times, is a model for success that fits our strategic direction”.
